WARRANTY PROVISIONS

In addition to the one year limited warranty by the compressor manufacturer, warrantor agrees, on its authorization, to repair the compressor(s) identified above at a cost to the purchaser of \$65 per hour plus expenses if the compressor becomes inoperable due to a field repairable condition defined as follows:

- Broken or damaged oil pump
- Grounded or leaking terminal plate or terminal plate o-rings
- Broken or damaged valve plates or valve plate assemblies
- Non-operating unloading assemblies
- Non-operating or improperly operating cylinder heads

The purchaser will not incur any cost associated with the parts necessary to complete repairs. **Repair coverage is limited to regional restrictions.**

In addition to repair coverage, the warrantor agrees that it will replace the compressor(s) identified above at a cost determined by the four year prorated schedule (shown below), if the compressor(s) become inoperable due to a condemning condition defined as follows:

- Burnt or grounded motor
- Broken crankshaft
- Broken rod(s)
- Smearred or washed bearings

**** The decision of repair or replacement lies solely with the warrantor. ****

GENERAL CONDITIONS

Warrantor must be promptly notified of a compressor failure in order to secure replacement parts or compressor. This warranty is void if the compressor has been subjected to negligence, accident, misuse, or operated in a manner inconsistent with factory instructions, or if the serial number has been defaced or removed. Defective parts become the property of the warrantor, or any other authorized source, at the request of the warrantor.

Warrantor shall not be liable for any incidental, consequential, or special damages or expenses.

This warranty is expressly in lieu of other obligations on part of warrantor, and the warrantor does not assume for it or any other obligations or liabilities in connection with said compressor(s). This warranty cannot be cancelled except as provided for above.
